

ELIMINATE ODORS IN YOUR VEHICLE!

ODOR-B-GONE™ is a technologically advanced chemical designed to neutralize odors that form in the evaporator core, air ventilation system and vehicle interiors. It is deployed through a special application tool that atomizes the product into a dense fog, which is then injected throughout the HVAC system and diffused into all porous material in the interior of the vehicle, such as carpet, seats and headliner.

ODOR-B-GONE™ Is Effective At Removing Odor Caused By:

- Tobacco Smoke
- Mold & Mildew
- Pet Dander
- Bacteria
- Most Other Biological Contaminants

Easy To Use Applicator #74350

Unscented #06508 or
New Car Scent #06518
